re: **Requests for GPS Map and Special Study 84.**

Dear Lynn:

Please send me one copy of the GPS map showing the road built by Lon Thomas that begins at his Klondike Gold Quarry on Section 28, and extends to the northeast to the work area below the Briggs Quarry being operated by Ernie Hale on Section 22. Enclosed is a check for \$10.00 for the cost of the map.

The cost of Special Study 84; The Quartzite Building Stone Industry of the Raft River and Grouse Creek Mountains, Box Elder County, Utah by the Utah Geological Survey is \$5.33 with tax. Enclosed is a check for \$5.33. Thank you for being willing to pick up a copy of this publication for me.

Sincerely,

*David J. Ryzak*
